INTRODUCTORY.

With this issue of the Terre Haute City and Vigo County Directory we present the Twenty-first Volume of the City Directory, the last seven of which have been issued by us, and the Third Volume of the County Directory, all of which have been issued by us.

This new volume will be found to be the largest of the kind ever issued in this county. The matter in the county part is arranged entirely different from previous works.

The new City Map, since the names of a great many streets have been changed, will be found to be a great addition. The Street Directory will, with use of map, be found a valuable assistant in locating parties.

Our city shows a steady growth, but the increase in population has been greater the past year than for any one year for some time. A close estimate gives us 34,000.

The extra amount of labor necessary in preparing this volume for press, and the printing of same, has taken considerale more time than issues of previous years. We think our citizens will be well repaid for the extra time it has taken to complete the work. Besides, no Directory the size of this and giving two maps (city and county) is furnished to subscribers as cheap as this one.

Thanking our patrons for the favors they have bestowed upon us in the past, and hoping for a continuation of same for our Directory of 1888, we remain

Your obedient servants,

CHAS. O. EBEL & CO.

INTRODUCTORY.

We have the pleasure of presenting the citizens of Terre Haute with a City Directory, which will favorably compare with former ones. We have endeavored to keep in mind the wants of the public, and tried to give them the information needed, not only by the stranger, but the business men of the city. More than usual care has been taken to obtain reliable information by experienced canvassers, and give it in condensed form.

The city of Terre Haute is rapidly increasing, not only in population, but in her business interests of all kinds, and its citizens may well feel proud of its present prosperity and future prospects.

The number of names contained in this work is 13,926, which, multiplied by 2½, the smallest factor used, gives a population of **34,815.**

Thanking the citizens for their kindness and patrons for their favors,

Respectfully,

W. F. CURTIS.

COMPILED AND PUBLISHED BY CHAS. O. EBEL & CO.
1889.

INTRODUCTORY.

It is with no small degree of pride that we present this the Twenty-Second Volume of the Terre Haute City Directory to our patrons. We have had the pleasure of publishing Eight of the Twenty-two Volumes of the Directory of this city, and have always endeavored to make each succeeding issue an improvement over the previous one. We can truthfully say that this Directory is by far the greatest improvement we have made. Patrons will certainly find that it will compare *favorably* with a (so-called) directory issued last spring.

The new features, the Street Number Resident Directory and the Indexing, while very costly to us, will be found very valuable additions to the work. Such additions are only made possible by the generous patronage of our citizens, and a look through the work will show that we have been fortunate in this respect.

There will be found, by actual count, 14,185 names in the Alphabetical Directory, which multiplied by 2½ would make our population 35,462, which will be found to be about correct. The largest number of names commences with S—1513, followed closely by M, 1451; B, 1324; H, 1241; while W and C have 979 and 975 respectively. Residents names commencing with above letters comprise over half our population. Q has the smallest number —16, while X is entirely missing. The Smiths still lead with 196 spelled plain Smith and 39 spelled otherwise, making a total of 235. The Browns (and Brauns) 89, Jones 52, Johnson 98, and Thompson with a "p" 43, are badly beaten by the Miller family with 124 names, while the Davis family is keeping up with 95. In addition to the above, the following names have fifty or more: Allen, Baker and Becker, Kelley and Kelly, Murphy, Meyers (with various spellings), Williams and Wilson.

Terre Haute has shown a steady and healthy growth. While large numbers of residences and business houses have been erected within the past few years all are occupied and the demand is for more. We predict that the next five years will see greater improvements in Terre Haute than the previous five show.

We consider that this volume will be an excellent advertisement of our city, and, considering it such, we will place a copy in every Hotel within a radius of sixty miles of Terre Haute. This will make it especially valuable to our advertisers and patrons generally whom we aim to serve, and who we hope to place on our list again in 1890.

Thanking the public for their patronage and hoping a continuance of same, we remain

Very truly,

MAY 1, 1889. CHAS. O. EBEL & CO.

GROWER AND DEALER

IN ALL KINDS OF

NATIVE ✿ WINES

Vineyard at Terre Haute, Ind.

ESTABLISHED 1863.

I have now a grape which is of foreign origin, a white Traminer—it is sweet and delicious, with an excellent flavor. I have tried it for the last four years in all kinds of weather—cold, hot, dry and wet—did not freeze at 25 degrees below zero, nor rot in the dampest weather, while all others had rotted badly, and no protection given whatever. In fact it is the plant for our climate, for it is useless to plant anything that won't stand the climate. These grapevines I have for sale this fall. Buy them and you will never regret it. Information will be given for planting, cultivating, pruning, etc.

To those desiring to buy a **Pure Grape Wine**, I will say that I have the following wines—from one to eighteen years old—for sale, namely:

Catawba, Rieslings, Claret, Port, Sherry, Madeira,

SWEET AND DRY.

Also one of the most celebrated pure anti-ferment grape juice—a temperance drink—that heretofore never was known. It is as sweet and delicious as any ripe grape ever grown; will never ferment in warm or cold weather, does not intoxicate, and contains no foreign ingredient. It will cure dyspepsia, create appetite, and keep up your health. It can be analyzed by any chemist as to its purity. TRY IT and be convinced.

I will sell all the above in cases—twelve bottles to the case, five bottles to the gallon. Sold also by the keg, half-barrel and barrel.
